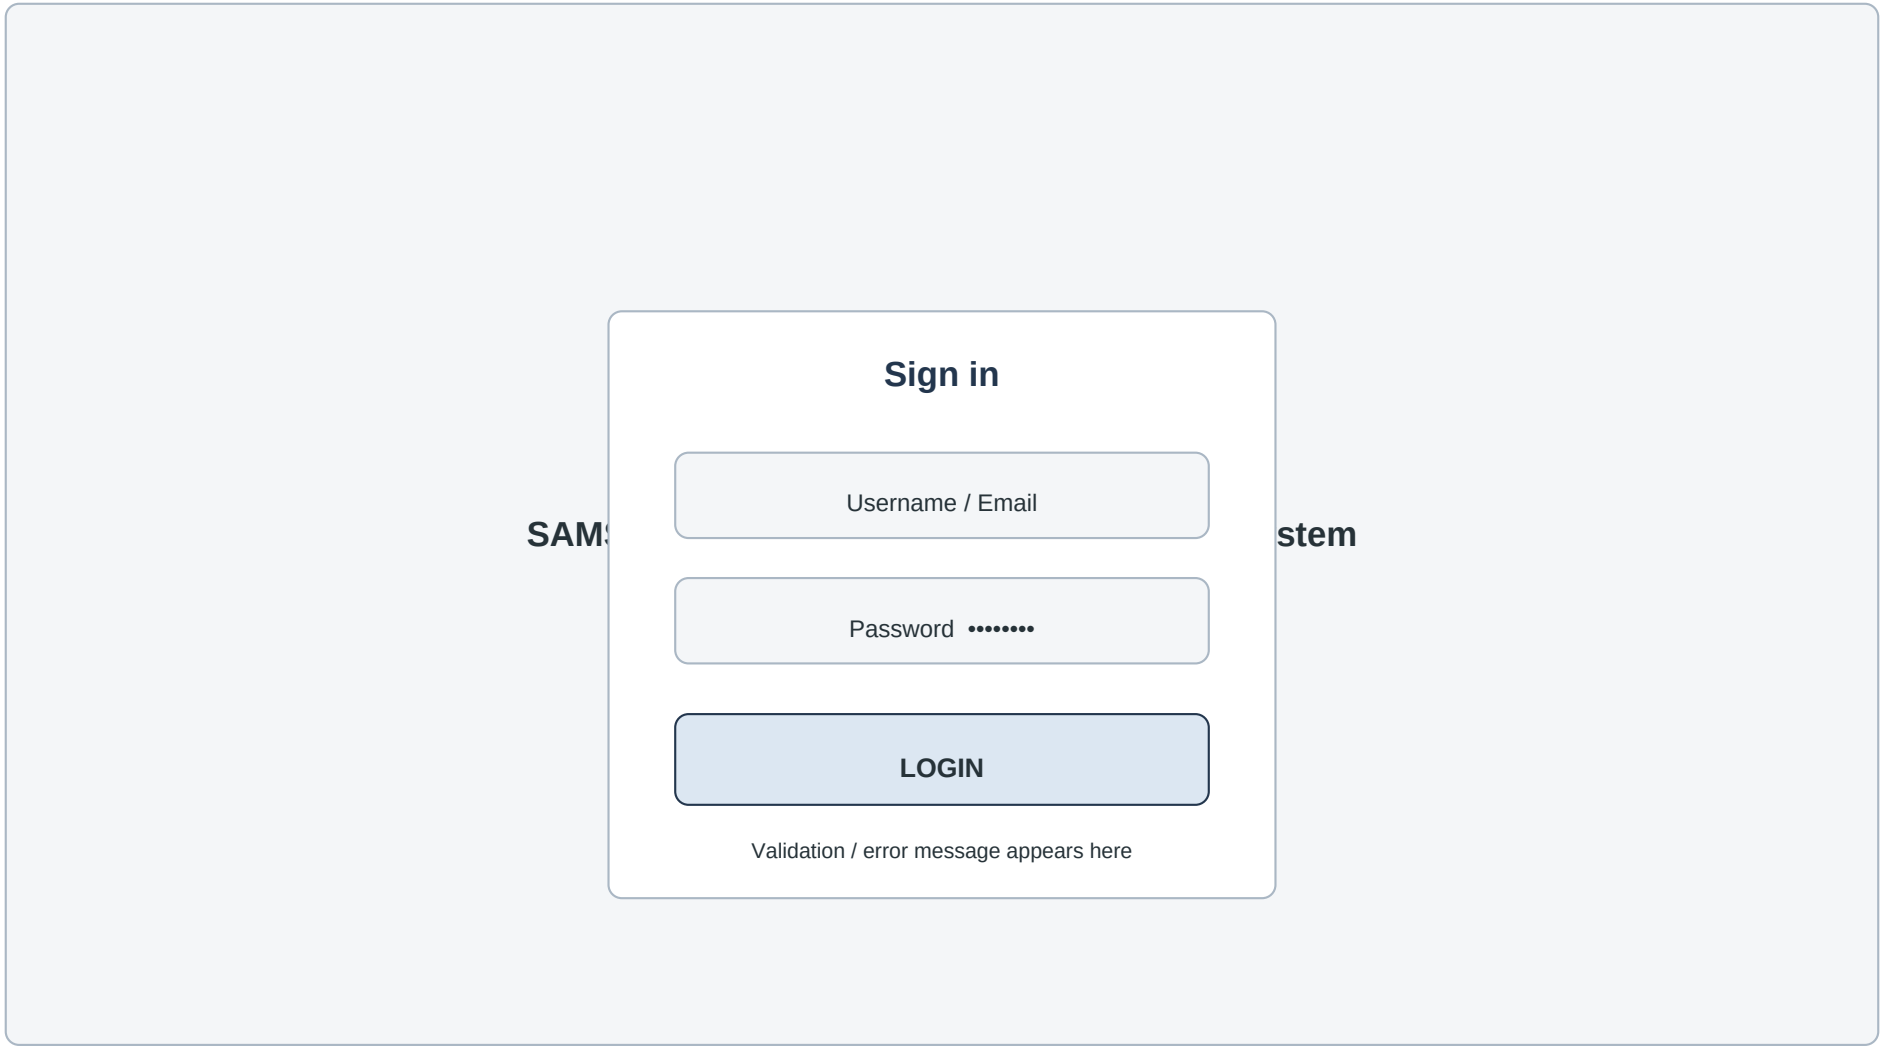
1. Login Screen

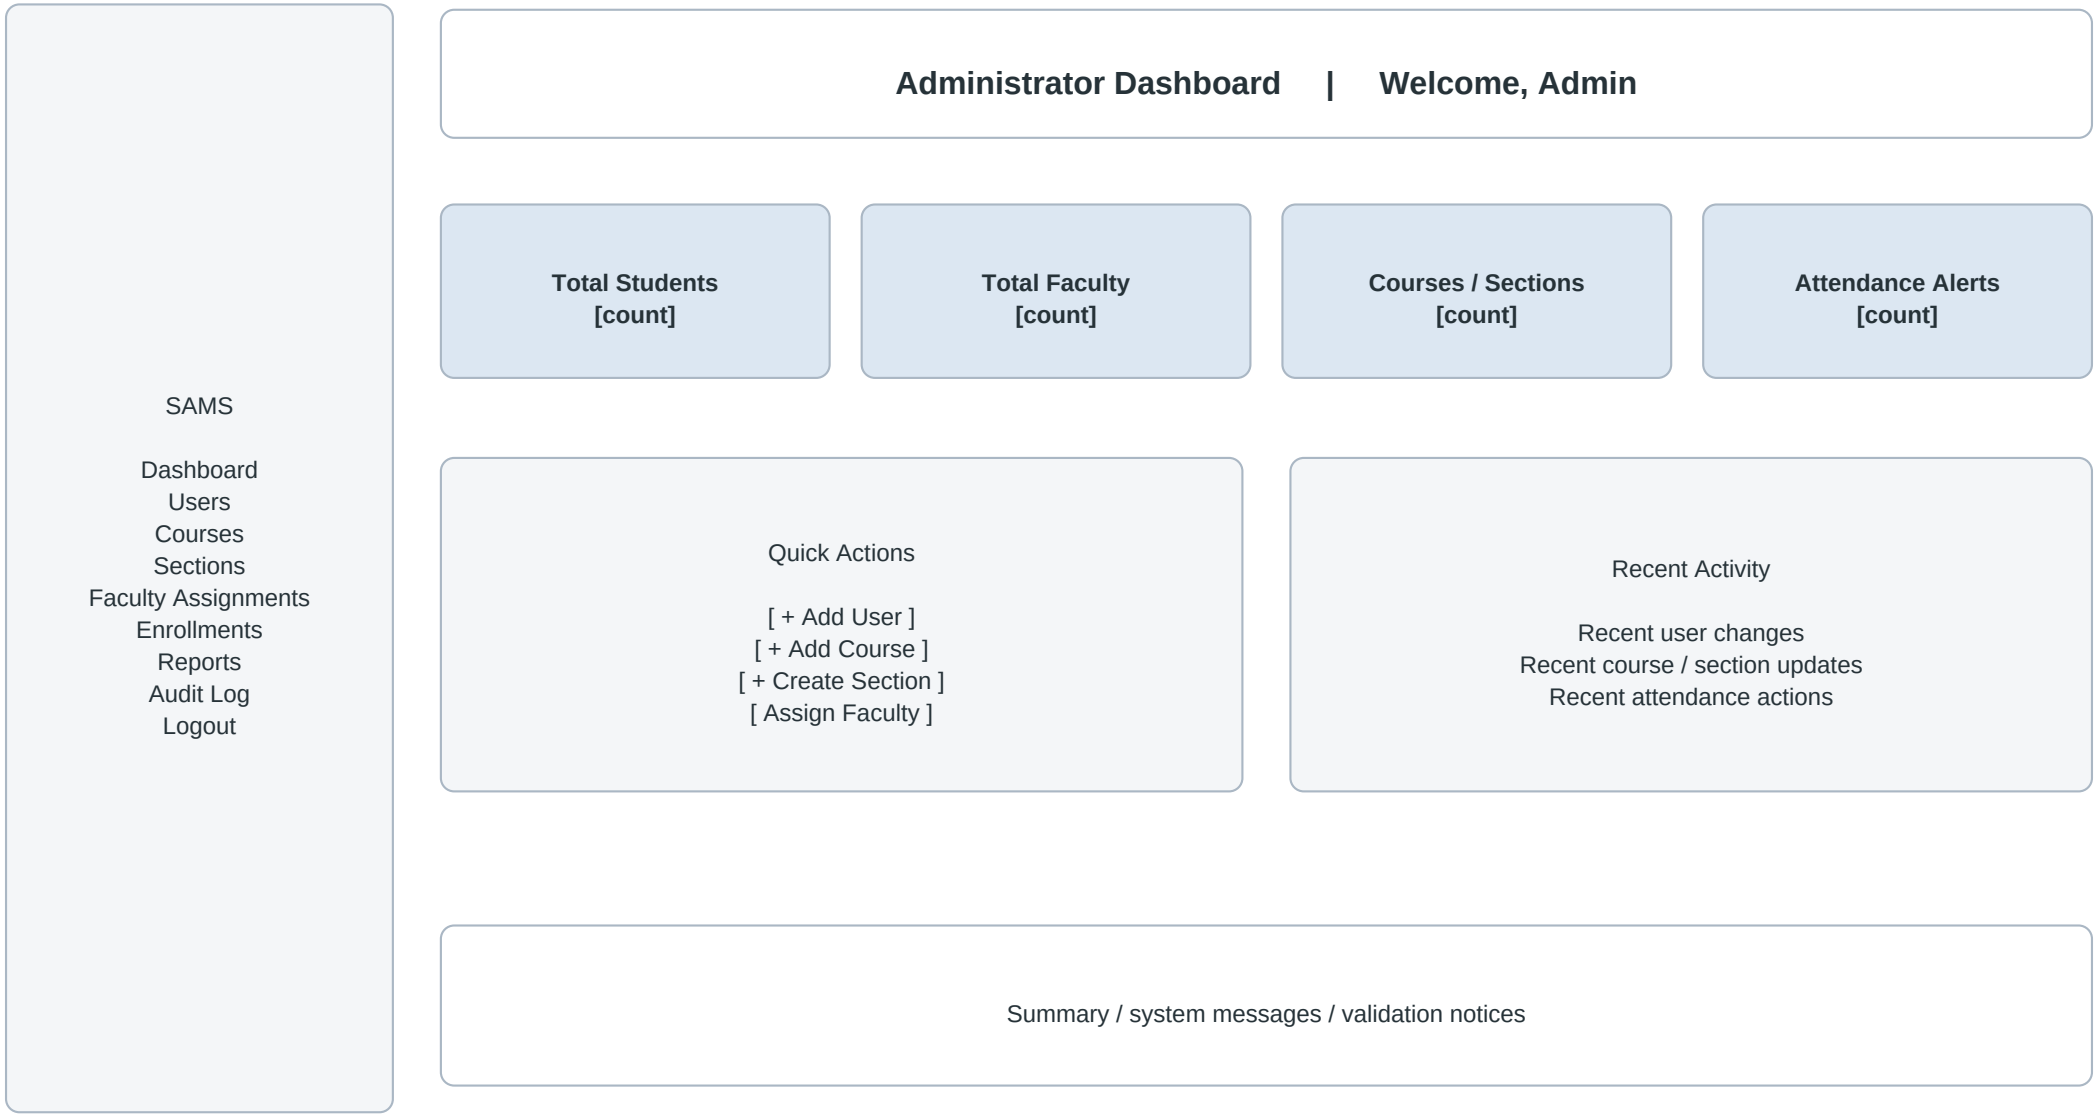
Purpose: authenticate Student, Faculty, and Administrator users and route each user to the correct role dashboard.



After successful login: redirect to Student, Faculty, or Administrator dashboard based on role.

2. Administrator Dashboard

Purpose: provide a central starting point for user, course, section, faculty assignment, enrollment, and reporting functions.



3. User Account Management

Purpose: let the Administrator create, view, update, activate, and deactivate Student and Faculty accounts.

Users / User Account Management

[+ Add User] | Search by name / email / ID | Role: All ▼ | Status: All ▼
